

Addpoint 628 RS-232 Serial Numeric Keypad w/ Touchpad

(SKU#628)

Product Highlights

Description: The Addpoint 628 is a unique numeric keypad. This keypad incorporates a touchpad into its design, and replaces the user's standard mouse. It enables notebook users to speed through number crunching with ease, and jump from point to point by using your finger on the touchpad. This keypad also includes a built-in protective cover. Assembled with high quality Alps keyswitches, the keys are durable, yet light and easy to press--a feature lacking on lesser quality keypads. Bonus features are two utility applications included with the software driver diskette: GenCalc (calculator software), and Macromaster (hot-keys software).

- 17-Keys.
- Serial Port Adapter.
- Built-in touchpad.
- Built-in protective cover.
- Low power consumption.
- 1-year warranty.

Type: Universal, 17-key Keypad + Touchpad

Interface: Serial

Keys: 17

Touchpad: Yes

Programmable: Yes

Color: Dark Gray

Dimension: 6.1 X 4.64 X 1.5

Weight: 0.64

OS Requirements

OS Supported: DOS
Windows 3.x
Windows 95 / 98 / Me
Windows NT / 2000 / XP

Specifications
