

DIRECT LABELS

For small desktop printers

- Quality direct thermal labels requires no ribbon
- Recommended for shipping and short term product identification
- Specifically designed to resist a variety of contaminants in the grocery and industrial markets including water, blood, fat, and oils.
- Designed to print at moderate speeds or low print head voltages
- Permanent adhesive for corrugated and superior adhesion to plastics
- Minimum application temperature of - 3 celsius
- Service range - 53 celsius to 37 celsius
